### LASTING UPF 20 PROTECTION

Relax in the knowledge that the protective effect lasts as long as the garment.

### INNOVATIVE EFFECT FOR A SUSTAINABLE ENVIRONMENT

Outstanding exhaustion and fixation during application make for environmentally friendly production. Enhanced health care brings added social and economic benefits.

### HOW IT WORKS

High IQ<sup>®</sup> Sun Protection provides fabrics with built-in protection against the sun's powerful UV rays by altering the porosity of the fabric to achieve an Ultraviolet Protection Factor (UPF) of 20. Heat reduction performance is excellent and colors retain their brightness. Integrated UV protection is ideal for light- and medium-shade cellulose and its blends.

- Fabrics: suitable for 100% CO and its blends, 100% PA and 100% PES
- End uses: T-shirts, shirts, polo shirts, hats, swimwear
